FOR CANADIAN FIRMS CHASING GOVERNMENT WORK

BRAND GUIDE.

The foundation of how BeaverBids looks, sounds and shows up. This guide covers the logo, colour, type, photography and a few real applications, so every piece reads like it came from the same shop.

ABOUT US.

BeaverBids watches every federal and provincial procurement portal overnight: CanadaBuys, MERX, BC Bid, SEAO, NBON and the rest. Firms get only the tenders that fit their trade, their province and their bonding capacity, in their inbox by Monday, 7 a.m.

Each opportunity comes with a plain language summary of scope, deadlines and mandatory criteria, plus a first draft proposal. It is built for the shop, not the enterprise: trades and small businesses of 5 to 100 people with no bid team, certified Indigenous, women and veteran owned suppliers, and the consultants and bid writers who work for them.

8+

portals to check by hand, every single day

70%

of relevant tenders never seen in time

3 DAYS

average lead time lost to manual searching

$0

spent on the contracts you never found

BID IT OR BIN IT.

Our voice is plain, direct and specific. We speak to the owner or estimator in the second person, promise less and show more, and never use hype.

LOGO ON BACKGROUNDS.

BEAVERBIDS

PAPER #F3F1EC · WORDMARK IN ASPHALT

BEAVERBIDS

CONCRETE #CAC5BD · WORDMARK IN ASPHALT

BEAVERBIDS

ASPHALT #23221F · WORDMARK IN PAPER

The logo is the beaver mascot beside the BEAVERBIDS wordmark, set in Archivo Expanded ExtraBold. The mascot keeps its own colours on every background. On asphalt and over photography it takes a medium paper keyline (#F3F1EC) around its outline, the same colour as the wordmark there, so it lifts off the dark ground. No keyline on light grounds. The wordmark is asphalt on light grounds and paper on dark ones, and is never set in signal red. The mascot may also stand alone as an icon, and the wordmark may stand alone where the mascot would be too small to read.

CLEAR SPACE AND SIZE.

X = the cap height of BEAVERBIDS. Keep at least X clear on every side of the lockup. Nothing enters this space: no text, edges, photos or other logos.

Scale the mascot and wordmark together. The mascot is centred on the wordmark, and the gap between them is a quarter of the mascot height.

MINIMUM SIZE

32 PX

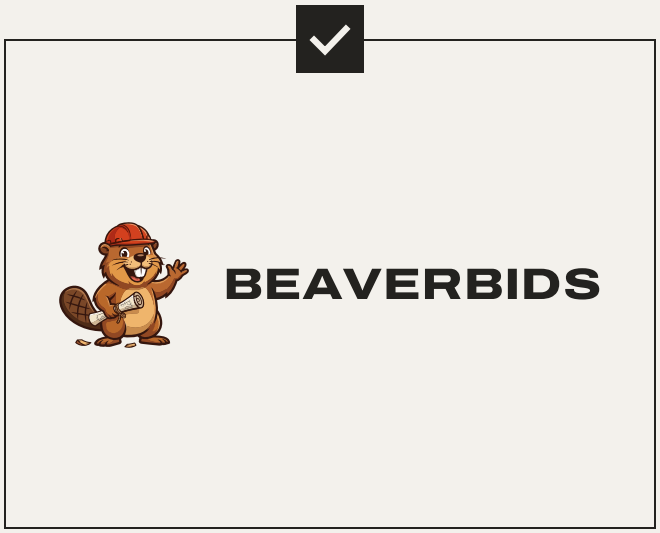

Mascot height in the full lockup on screen. Below 24 px, drop the wordmark and use the mascot alone.

14 MM

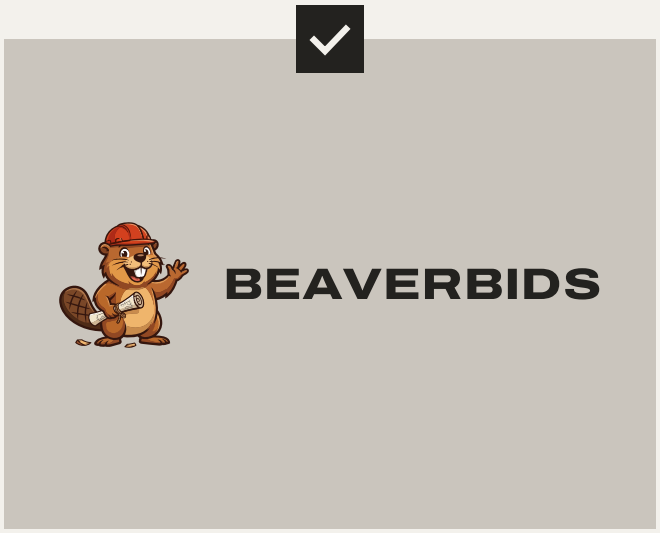

Mascot height when it stands alone in print.

CORRECT USE.

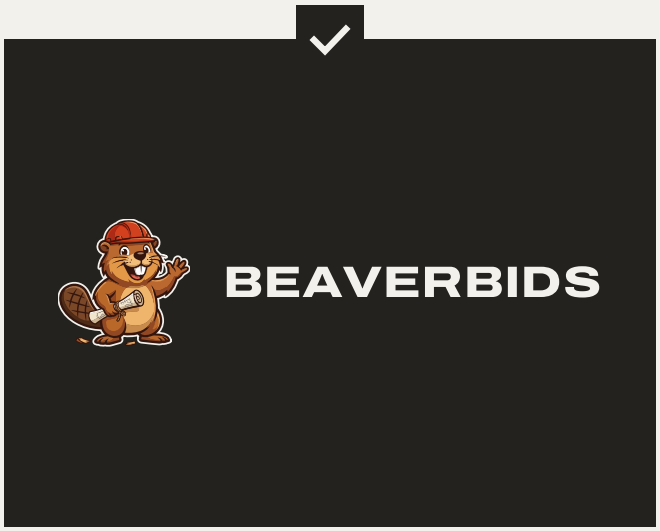

FULL LOCKUP ON PAPER

The default for documents, the website and print.

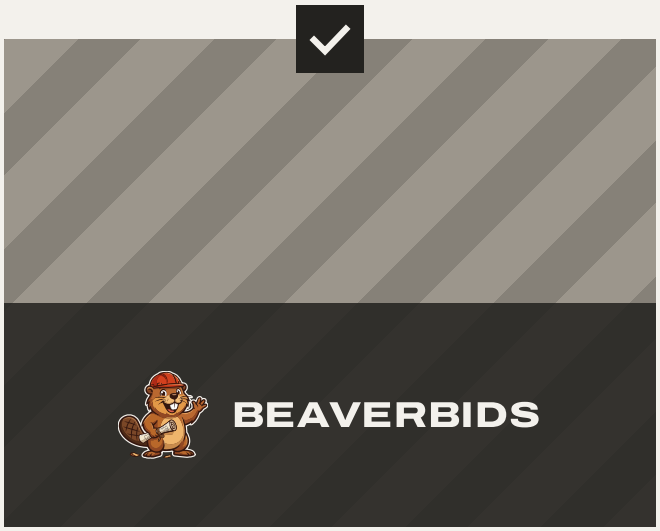

FULL LOCKUP ON CONCRETE

Hero areas, covers and calls to action.

PAPER KEYLINE ON ASPHALT

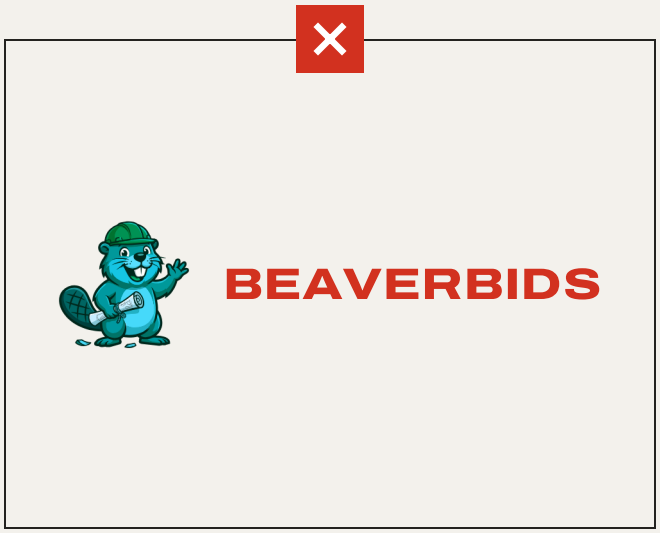

Dark sections, footers and business cards.

KEYLINE OVER A SHADED PHOTO

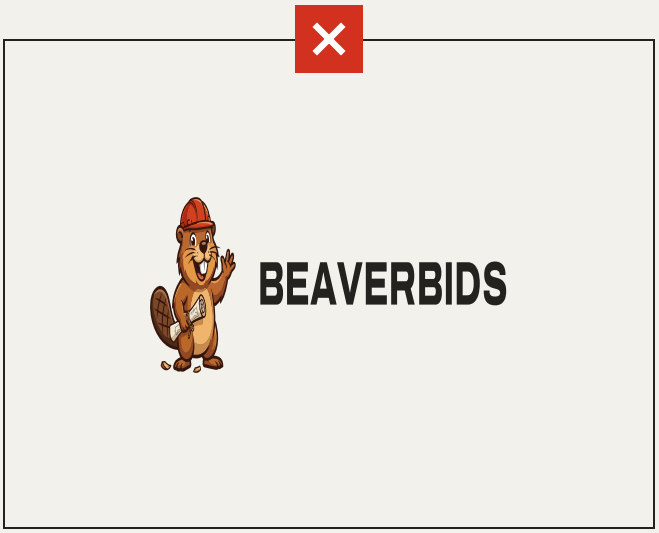

Keep the asphalt shade (86%) under it as well as the keyline.

INCORRECT USE.

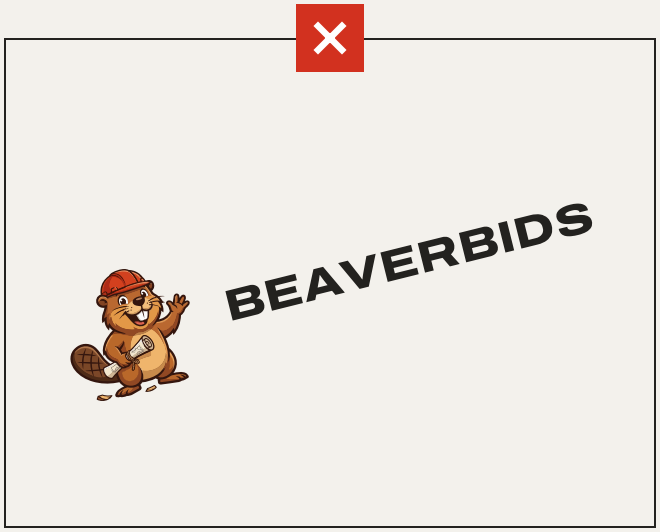

DON'T RECOLOUR IT

The mascot keeps its own colours and the wordmark stays asphalt or paper. Red is for actions, never the logo.

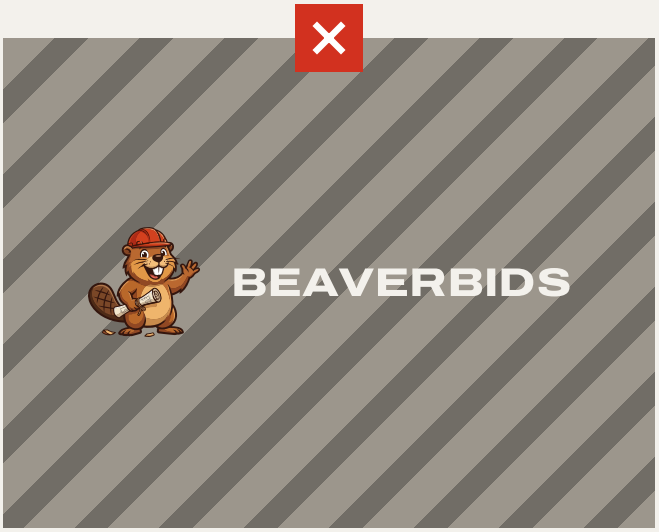

DON'T STRETCH OR SQUASH IT

Always scale proportionally.

DON'T ROTATE IT

The lockup always sits level.

DON'T PLACE IT ON A BUSY PHOTO

Without the asphalt shade the mascot and name break up. Redrawing the mascot or retyping the name in another font is also off limits.

COLOUR PALETTE.

SIGNAL RED

HEX #D2311F
RGB 210 49 31

The only accent. Buttons, one highlight per headline, live values and markers.

ASPHALT

HEX #23221F
RGB 35 34 31

Text on light backgrounds and dark sections.

CONCRETE

HEX #CAC5BD
RGB 202 197 189

Covers, hero areas and calls to action.

PAPER

HEX #F3F1EC
RGB 243 241 236

Reading pages and text on asphalt.

SLAB

#DEDAD3 · RGB 222 218 211

Cards on paper.

BONE

#FAF9F6 · RGB 250 249 246

Forms and panels.

60% PAPER + CONCRETE | 30% ASPHALT | <10% RED

Use white or paper text on signal red. Use red as text only at large sizes (24 px and up) on paper or asphalt, never on concrete. The beaver mascot is the one exception to this palette: it keeps its own browns and hard hat red wherever it appears.

TYPO-GRAPHY.

Aa

ARCHIVO EXPANDED EXTRABOLD

HEADLINES · ALWAYS UPPERCASE

ABCDEFGHIJKLMNOPQRSTUVWXYZ
0123456789 $%&.,:?!

Headlines, big numbers and the logo. Tight leading, one red highlight per headline, never below 18 px.

Aa

ARCHIVO REGULAR + BOLD

BODY AND TITLES

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz 0123456789

Regular in sentence case for body copy. **BOLD IN UPPERCASE** for card titles and buttons.

Aa

IBM PLEX MONO MEDIUM

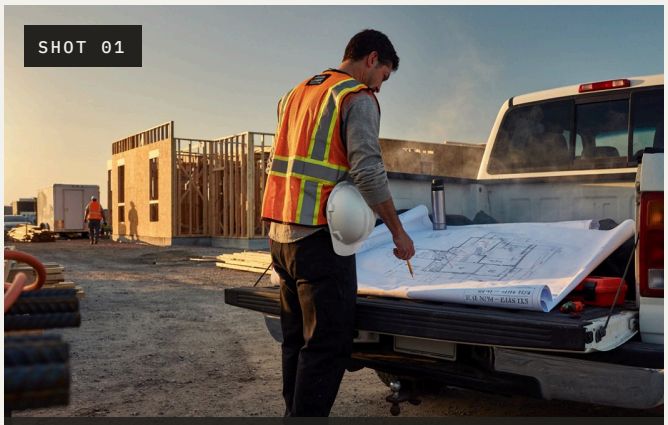

LABELS AND DATA

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz 0123456789

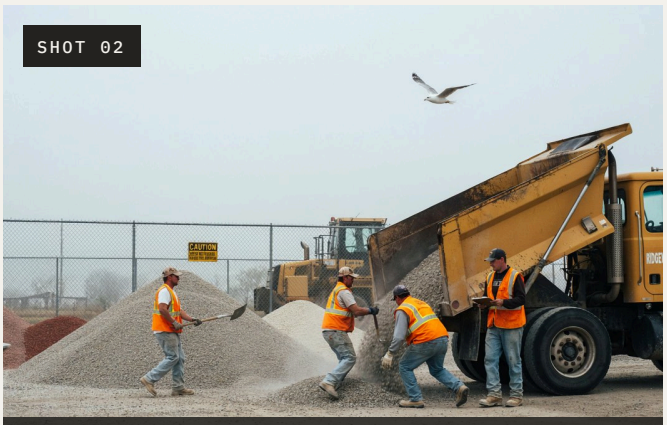

Small labels in wide-spaced capitals, and data lines like `RE: demos@beaverbids.ca`.

All three families are free under the SIL Open Font License from Google Fonts. Archivo Expanded is Archivo at its widest setting (width 125).

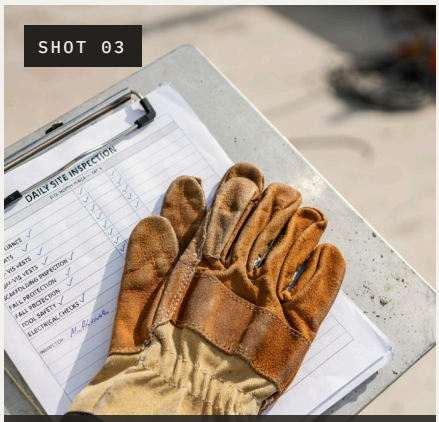

MOOD BOARD.

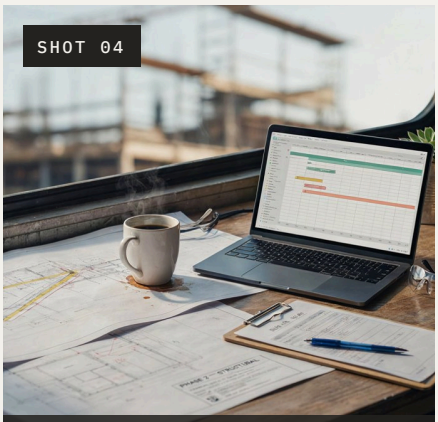

Estimator reading plans on a truck tailgate at golden hour.

Small crew unloading materials in a gravel yard, overcast sky.

Worn gloves on a site clipboard.

Site trailer desk: plans, coffee, laptop.

Concrete wall with hard shadow bars.

LOOK FOR

- Real people doing real work on real sites
- Low sun or flat overcast light
- Warm, slightly muted colour with deep shadows
- Room at the bottom of the frame for text

AVOID

- Office handshakes and posed smiles at screens
- Spotless hard hats lined up in a row
- Blue corporate colour grading
- Flags or maple leaves as decoration

These five images set the reference for tone, light and framing. New photography should sit comfortably beside them.

MOCK-UPS.

THE PROBLEM

THE BID YOU MISSED WAS WORTH WINNING.

We watch every federal and provincial portal overnight, so you don't have to.
